

# FMC 2900R

## The Motor Coach

This is the Motor Coach that was just that from the very beginning. Not a conversion or an adaptation, but rather, fully-engineered from the ground up.

Step back and take it all in. A gleaming deep gold and white—colors that are molded right into the strong, weatherproof fiberglass shell for lasting beauty. Black and chrome, prudently used, accent its finest lines.

The FMC 2900R is built over a custom chassis, integrating body and frame into a single unit. You're sheathed in a steel beam lower frame and surrounded by an aluminum upper cage.

Long (29'8"). Low (8'4"). And a wide track stance (83"). (Wait'll you feel how it handles in corners, and takes wind buffeting.) Sleek, smooth lines that give the FMC 2900R reduced air resistance at highway cruising speeds for improved performance, handling, and fuel economy. (Note the absence of unsightly, drag-producing roof-mounted appliances.)

Front and rear, the vehicle's protected by shock-absorbing bumpers.

There's a driver's door, for safety and convenience. And a mid-vehicle passenger's door, too. And at the vehicle's rear is where you'll find the engine. A heavy-duty 440 cu. in. Chrysler Industrial V-8. Greater traction, because the engine's in the rear where it should be. More efficient, because there's no long drivetrain. More enjoyable for the driver, because all the engine noise, heat, and vibration is far behind him, instead of right beside him. And easier to service—the engine is completely accessible from the outside.

All the FMC 2900R's major living systems are readily accessible from outside the vehicle, too. And all compartments are safety locked.

Unseen is the Coach's custom independent suspension at all four wheels, for a smoother ride. Spring-supported "A" arms up front, and torsion bars (like you find on luxury cars) in the rear.

Also unseen are the largest power brakes available, for a safer ride. And the automatic transmission and power steering, for an easier ride.

Now step inside. The first thing you notice is the easy step into the vehicle, and the uniquely low, flat floor. That's another benefit of the rear engine location.

The next thing you'll notice is the luxurious approach taken to living.

Deep shag carpeting underfoot. Easy-care vinyl clad aluminum interior walls. Rich wood grain cabinetry with safety-padded corners. Color-coordinated drapes and upholstery. PLUSH! And tinted safety glass all around, bringing the outside inside.

Take a turn at the wheel. Slip into the luxuriously padded driver's seat, with fold-down armrests, seatbelts, and shoulder harness. Once again, note

the driver's door. Convenient. And the adjustable steering column. More convenience. Cast a glance over the padded, shrouded dash featuring a full array of instruments—speed, tach, fuel, oil, water, lights, signals, and generator, brake, and engine warning lights.

Within an arm's reach are ashtrays, cigarette lighters, AM/FM Stereo radio, tape deck, map light, and electric clock. There's also a unique optical display system that, at the flip of a switch, gives you a digital status on the vehicle's functions and systems. Across the way is the two-passenger companion seat. And notice what's not in the way—a motor hump.

Step back into the galley and whip up a snack, or ready a full course dinner. It's easy because nothing's been spared to help make food preparation a complete delight. There's an eight cubic foot refrigerator/freezer. And a four-burner LPG range with an eye level oven. A power driven vent and exhaust

hood quickly eliminates odors and steam. A generous formica rolled edge counter gives you ample working room. And a stainless steel double sink makes cleaning up easy. Lots of storage space—drawers, cupboards, spice shelf. All with secure yacht-type closures.

Across the way is the roomy four-person dining area, that's also a relaxing area/riding area by day, and quickly converts to a cloud-comfortable 43 x 76" bed at night. Take a look around. From the dinette vantage point you can see forever (at least 180° of the world around you).

Back past the passenger's side door. A spacious closet and pantry to the left.

And a lavishly-appointed bath to the right. The extra large molded fiberglass tub/shower is equipped with a fully adjustable and removable shower head. A color-coordinated curtain separates the bath from the toilet, sink, and vanity area. Towel racks, soap dish, toothbrush and drinking glass holder

are all included. Above the sink/vanity are two medicine cabinets. And three large mirrors. Electrical outlets and a powered exhaust skylight add to the bath's convenience.

And finally, the rear salon. Room for living. Plush couches on both sides of the vehicle, with a foldaway lounge table in between. Room lights, reading lights, and a TV hookup. By night, you have your choice of two single beds, or a queen size bed. And folding doors (two of them) at the vehicle's center divide the front and back of the vehicle into private staterooms (as well as creating a private dressing area).

FMC 2900R. It's also equipped with a 30,000 BTU furnace, a 60 gallon water tank, a 10 gallon water heater, a 20 gallon LPG tank, a 65 gallon dual waste-holding system, and 110 cubic feet of storage.

Inside and out, front to back, road to roof—The Motor Coach—by FMC Corporation. A worldwide billion dollar manufacturer of diversified machinery, chemical, and fibers and films products. Drawing on its over 87 years of design and production expertise to bring you this—the FMC 2900R.

Length 29 feet 8 inches . . . Width 8 feet . . . Height 8 feet 4 inches  
Gross Vehicle Weight 14,000 lbs.

## STANDARD FEATURES

### AUTOMOTIVE

440 cubic inch rear engine  
Engine completely accessible  
from exterior  
Custom chassis  
Independent front and  
rear suspension  
Heavy duty automatic transmission  
Heavy duty radiator with  
transmission cooler

105 amp.-hour battery  
60 amp. alternator  
60 gallon fuel tank  
Full Instrumentation  
fuel, speed, oil, water,  
tach, generator  
Power steering  
Power brakes  
Frame tie & tow hooks  
Concealed front wipers & washers  
Rear wiper & washer  
Jack & lug wrench  
7.50 x 17 8-ply tires  
Wheel covers

### SAFETY

Steel chassis  
Aluminum upper cage frame  
Seat belts  
Shoulder harness  
Head restraints  
Driver and passenger door  
Emergency flashers  
Brake warning light  
Tinted safety windshield  
Fire extinguisher  
Courtesy door lights  
Shock-absorbing bumpers  
Back-up lights and warning buzzer

### LIVABILITY

Color-coordinated interior  
8 cubic ft. refrigerator/freezer  
4-burner range—eye-level oven  
Map light  
Tub/shower  
2 rear beds (34 x 80 & 36 x 80)  
convert to queen-size bed  
Double front bed (43 x 76)  
Bath exhaust fan  
Electric clock—caution panel  
Rear lounge table  
Tinted windows  
AM-FM stereo radio & tape deck

### CONVENIENCE

60 gallon water capacity  
65 gallon dual waste-holding tanks  
10 gallon hot water heater  
20 gallon LPG tank  
84 cubic ft. interior storage  
26 cubic ft. exterior storage  
System indicator panel

### HEATING

34,000 BTU automotive heat/defrost  
30,000 BTU ducted furnace

### ELECTRICAL

110v/12v lights and plugs  
40 amp. converter  
TV antenna  
Prewired for CB radio  
Prewired trailer connector

## OPTIONAL FEATURES

### AUTOMOTIVE

Automatic leveling system  
Spare tire and wheel  
Trailer tow and motorcycle rack  
Michelin tires  
Cruise control

### LIVABILITY

Thermasan waste system  
Water purifier

### AIR CONDITIONING

32,000 BTU automotive cooling  
27,000 BTU auxiliary cooling  
(not roof-mounted)

### ELECTRICAL

6,500 watt auxiliary power unit
